

# Joshua Harty

Johannesburg, 2074 | (27) 78 818 0027

Jharty1999@gmail.com | <https://github.com/JHarty404>

Hello, my name is Joshua Harty and I am a back-end software developer with a passion for technology. I am driven to make a meaningful impact on the world through my craft. I have a strong work ethic, developed through my experience working in a steel factory as a youth. I understand the value of hard work and I am committed to using my skills to make a difference. In my free time, I enjoy tinkering away at my own projects

## EXPERIENCE

### **Back-end software developer** Oct 2022 - Present

The Good People Data Company, Johannesburg

- Developing and maintaining web applications using Django, Python, JavaScript and related technologies
- Designing and implementing database structures using MySQL and pgAdmin
- Writing and troubleshooting code to meet business and technical requirements
- Using Ajax to build interactive, responsive web interfaces
- Writing and debugging HTML and CSS to create visually appealing and user-friendly web pages
- Collaborating with front-end developers and other team members to ensure that the web applications function seamlessly and effectively
- Participating in code reviews and contributing to the development of best practices
- Staying up-to-date with the latest trends and technologies in the software development industry
- Providing technical support and assistance to users as needed.
